for achievements hunter very good, 10V10 for all others not really, because it's just an achievement game.. This line is an awesome route and I had an awesome time on the route in TANE!. Beauty Bounce is the third or maybe second installment in the Dharker Studio's Bounce series. In this one you face your biggest nemesis, nay the enemy of mankind itself; the bank. Somehow your ♥♥♥♥♥♥♥♥♥♥♥♥♥♥♥♥grandmother late loving grandmother that owned a beach resort for 50 years never paid the freaking thing off. Can you sex the auditor into getting better rates? I did and let me tell you, she is a natural blonde. But if you're a man like me and thinks sex outside of marriage is haram then you can always take the next logical route; hosting a ♥♥♥♥♥ing stupid beauty pageant to draw crowds to obviously failing beach resort that the bank is foreclosing on due to incompetence of the new management that inherited the business from his grandmother on her deathbed even though he flunked out of law school why does he have so much backstory of being a failure I'll admit it took me four years to get my two year degree but I didn't flunk out if you can get in you're set this dude is just a screw up. Anyway they story is mediocre, but has nice art and manages to get someone like me to keep buying their games. Took me 75 minutes to get all the CG. No girl really stood out. Seems a tad rushed at times. Losing the resort is the best ending.. Currently should have a lower price imo.

I love the concept and play style, it's very entertaining. The thing now is that it's short. The fuse was the hardest part to find for me and that extended my time with about 15 minutes. Great job on the game never the less, but extending it would be great!. Its nice that you made a bunch of different ways to move around the game. The best is probably the walk about, yet it can be nausiating. The best way to play if you are scared of the dark is the swinger as you can swim to the creepy stuff making it not actually creepy. Its quite good texture wise, it looks nice. It just isnt scary.. Bought it because developers promised Linux/Mac OS X version. They never released it. They also stop support of game and there of number of unfixed bugs in WIndows version.

Don't buy it.

It's like Vol. 1 but reprised and progressed with a bit more undertone.

Can't imagine why you'd own Vol. 2 and not 1.

Gregg rulz ok. I paid 1.99.. for a game i was NOT expecting to look\play anywhere near as good as this does.. the environments are quite nice and the game play is alot of fun.. TL.. Diablo.. TQ "ish" .. loot.. quests.. its just a solid and fun RPG.

Edit: 26 hours finished game.. i ran into no glitches or bugs myself.

Just a simple hack n slash loot em up rpg.. worth the funds imo.. Remember d good ol days. love this game, runs awesome ! AMAIZING QUALITY. This game was freaking awesome if you like puzzle games ... Though it only took me 2.1 hours (as per steam) to complete the first 3 levels it was totally worth the \$10 I spent on it.

To the developers I hope you come out with a ton more new levels that only get exceedingly harder...I would even be willing to pay for DLC's V expansion packs if that is any encouragement to make the new levels.
